Export Arab Gulf

Dear valued Customer,

following the recent Dubai customs circular REF# G1MRH FW all Bs/L and manifests to or via Jebel Ali / Dubai must hold all 8-digit HS-codes for the cargoes signed. Shipments that fail to comply with this rule may be set on hold by customs. All costs that may occur due to this will go back to the shipper / booking party.

Therefore please make sure to mention all 8-digit HS codes when submitting the B/L to SACO Shipping for any port in the Arab Gulf region.

For any further question our Export Middle East Team will assist you.
