ETS: 17/10/2012 – ETA: 12/11/2012

EXPORT DEMOCRATIC REPUBLIC OF THE CONGO

we would like to inform you that shipping line's suspended their Matadi-services until further notice so we are not able to offer any departure to Matadi from Hamburg.

Matadi and its transshipment port Pointe Noire are heavily congested, line's are talking about a backlog of 120 days.

Additionally the river Congo has low water level so vessel to Matadi can feeder with 50% capacity only.

Carrier CMDC still offers departures from Antwerp, we show the departures on our homepage www.saco.de and offer delivery in Hamburg and Bremen with Trucking to Antwerp.

Nevertheless a long transit-time needs to be considered, we actually calculate with 8 weeks.

We will keep you updated.
