

## GENERAL INFORMATION REFERRING ATB-NUMBERS

The ATB-number for your Import-shipment is available at [www.pchpacking.de](http://www.pchpacking.de) under the topic [Sendungsauskunft](#).

The ATB-number can be obtained with the SACO-reference-number indicated on the arrival notification. The foresaid webpage is currently accessible without registration.

Any ATB-number and customs related services will remain free of charge until end of January 2013.

If you face any problems please contact the SACO-staff member indicated on the arrival notice.

## SACO FCL – WE MAKE IT POSSIBLE

Late last year a small coaster was drifting with engine problems at the port of Limassol.

Spare parts from Germany were needed quickly. The SACO-FCL-department was given this order and the journey began. First a shipping line was found and a 20' open top container was loaded with the important spare parts and then launched to Cyprus.

Arriving in Limassol everything was stopped - the ship was moored too far away from the quay. The planned delivery by truck was impossible and another solution needed to be found.

Together with the SACO agent in Cyprus a tug boat was hired. The service was now arranged by sea - the only way to bring the container on board without major loss of time. With its own loading gear the ship could then take the container on board, discharge all heavily needed replacement parts and load the prior uninstalled broken parts to the same container. The container came back on board of the tugboat and then the container was shipped back to Hamburg. The coaster was able to continue the journey just a little later.
