

Relaunch SACO Shipping: www.saco.de

We are pleased to present our new website as of the 9th of September!

Lots is new. Alongside a new appearance, numerous improvements and updates await you, all of which makes our website much more comfortable for you to work with.

New Layout

The new website now has a completely revised layout. Thanks to this new, clearly laid out design you will quickly find what you're looking for.

Select an Office

The first time you use our new site you will be asked to select a SACO office. Any further booking requests will thereafter display the relevant contact person at that office. You have the possibility to alter this setting at any time in your customer profile.

Security

In order to protect your data, our website uses "https" protocol. This is identified by the green label within the address bar of your browser. Due to this protection, the information that travels between yourself and SACO in the customer access area will be transacted in an encrypted and certified manner using the most modern technology available.

This is what it looks like in Mozilla Firefox

This is what it looks like in Internet Explorer

Booking Request

The new form for online booking requests is clearly structured in that the individual booking steps are set out on separate pages. This makes input easier and helps to avoid making mistakes.

You are here: [Home](#) > [Service](#) > [Booking request](#) > [Master Data](#)

E-Mail for additional Confirmation	<input type="text"/>																							

In the order header the possibility to copy the booking request is offered. This will make repeat bookings even easier.

Also new is that you are now able to send completed documents, like for example a dangerous goods declaration. This saves you sending unnecessary additional e mails to your contact.
