## South Africa

### Export LCL Germany – South Africa

Also a very traditional service off the main trades, like Exports to South Africa has not been spared the effects of the global vessel delays and capacity/equipment shortages, especially in recent weeks.

Since more than 25 years SACO and SACO CFR (formerly CFR Freight) are working hand in hand to continually improve our various weekly LCL services to South Africa. One of these improvements is **our second weekly departure, an advantage now more valuable than ever.**

Two departures help us to mitigate delays due to blank sailings/persisting schedule disruptions and manage capacities more flexible.

Book your LCL shipment with SACO and benefit from our flexibility!
