Customs clearance procedure LCL Export Jeddah

Dear valued Customer,

We would like to inform you about the special form of Import customs clearance procedure at Jeddah Islamic Port, Saudi Arabia:

Shipments remain under customs bond in the "Pre Customs Warehouse" until consignee cleared the goods. After clearance goods will move to "Post Customs Warehouse". In order to avoid storages and/or possible penalty charges, consignee is required to collect cargo as fast as possible. All charges will be billed to consignee by Jeddah Customs Office directly.

In case of not collected shipments and/or rejected payments, all charges refer to shipper's account.

Neither SACO Shipping nor the releasing agent in Jeddah have any influence on the procedure.

For further information please contact your local SACO
Shipping Team
