Seasonal Australia Fumigation for Brown Marmorated Stink Bugs (BMSB)

Dear valued Customer

As some of you may have already heard the Australian Government Department of Agriculture and Water Resources has announced a limited period of fumigation of high risk goods. Therefore from September 1st, 2018 until April 30th, 2019 many goods bound for Australia need to be fumigated to make sure the Brown Marmorated Stink Bug will not be imported to the Australian environment.

For further information please check the official homepage of the Australian Department of Agriculture:

<http://www.agriculture.gov.au/import/before/pests/brown-marmorated-stink-bugs>

We are currently in contact with various pest control companies to find the best solution for you and your cargo. We will keep you further informed.

For further information, please contact your local SACO Shipping Team.
