

customer advisory

Export FCL & LCL Hazardous Cargo all Trades

Dear valued Customers,

please be advised of a requirement in our booking process. Due to official restrictions and insurance reasons, we are obliged to check the handling procedure of particular substances based on the Dangerous Goods Declaration & Material Safety Data Sheet. As a result some hazardous substances are restricted and can only be accepted in direct discharge while other substances are restricted entirely.

You already have the possibility to upload the required documentation for hazardous cargoes (Dangerous Goods Declaration/DGD and MSDS/Material Safety Data Sheet) during our online booking process.

As of January, 15th 2020, it will become mandatory to upload the required documents in order to proceed with the booking. Bookings can only be confirmed with complete and correct documentation on file. Deliveries require our previous booking confirmation.

Thank you for your understanding and cooperation.
Your SACO Shipping Team
